

## **UNITED STATES AIR FORCE** **Band of Mid-America**

### **GENERAL REQUIREMENTS**

#### **ARRIVAL**

- a) The performance hall should be available three hours prior to the scheduled performance. The exact set-up time will be determined at least two weeks prior to our concert.
- b) A facility manager must be present at the facility from the beginning of the load-in through the end of the load-out.

#### **PARKING FACILITIES**

Parking spaces are required for Band vehicles at the venue. The Band presently uses one touring bus and one 26 foot truck.

#### **STAGE REQUIREMENTS**

Minimum stage dimensions of 36 feet wide by 20 feet deep are required. 12 chairs (without arms) are required and should be placed at the front of the stage. Please ensure the space is clear and unobstructed prior to the Band's arrival. Any wing space should be cleared of props, boxes, etc. to ensure the Band's safety while entering and exiting the stage. Additionally, adequate and secure case storage must be made off stage.

#### **DRESSING ROOMS**

The men's dressing room will need to accommodate 15 males; the ladies dressing room will need to accommodate one female. Any rooms that provide coat racks, mirrors, tables, and have access to restrooms are extremely helpful. Whenever possible, the rooms should be available exclusively to the performers. If available, one large room should be provided (out of hearing distance of the stage) for the musicians to warm-up and be used as a storage room for instrument cases. This room must be secured when not occupied by the musicians.

#### **ACOUSTIC GRAND PIANO**

If there is a grand piano available, the Band requests to use it and asks that it be tuned prior to their arrival.
