

UNITED STATES AIR FORCE
Band of Mid-America

GENERAL REQUIREMENTS

ARRIVAL

- a) The performance hall should be available three hours prior to the scheduled performance. The exact set-up time will be determined at least two weeks prior to our concert.
- b) A facility manager must be present at the facility from the beginning of the load-in through the end of the load out.

PARKING FACILITIES

Parking spaces are required for band vehicles at the venue. The band presently uses two vans and one 26 foot truck.

STAGE REQUIREMENTS

Minimum stage dimensions of 20 feet wide by 28 feet deep are required. Please ensure the space is clear and unobstructed prior to the band's arrival. Any wing space should be cleared of props, boxes, etc. to ensure the band's safety while entering and exiting the stage. Additionally, adequate and secure case storage must be made off stage.

DRESSING ROOMS

The men's dressing room will need to accommodate six males; the ladies dressing room will need to accommodate two females. Any rooms that provide coat racks, mirrors, tables, and have access to restrooms are extremely helpful. Whenever possible, the rooms should be available exclusively to the performers. If available, one large room should be provided (out of hearing distance of the stage) for the musicians to warm-up and be used as a storage room for instrument cases. This room should be secured when not occupied by the musicians.
